

## OASIS-C2

Two FULL day OASIS-C2 Data Collection Rules & Guidance workshop, with optional Certificate for OASIS Specialist-Clinical Exam Administration.

## BLUEPRINT FOR OASIS ACCURACY – OASIS-C2 DATA SET

Effective, up-to-the-minute education targeted for field data collectors, their supervisors and those preparing for the COS-C Exam.

Experience the comprehensive and nationally acclaimed two-day Blueprint for OASIS Accuracy workshop and learn to confidently teach, audit and collect OASIS-C2 items accurately. Through guided, expert instruction, and participation in problem-solving discussions and application scenarios, achieve mastery of the OASIS items, conventions, and the latest data collection rules.

Rather than provide opinions, assumptions, or unfounded interpretations, the “Blueprint” presenters will model reliance on CMS guidance documents and provide and demonstrate strategies for how to find defensible answers to your OASIS questions.

## COS-C EXAM

The Certificate for OASIS Specialist-Clinical (COS-C) Exam is a voluntary certificate examination for those interested in demonstrating and establishing their expertise and commitment to OASIS data accuracy. Administered the day following the Blueprint for OASIS Accuracy training, the scope of the COS-C exam is similar to the Blueprint workshop agenda, covering CMS guidelines related to OASIS time points, regulations, patient populations, and OASIS-C2 item specific scoring. Candidates who successfully pass the examination are awarded the COS-C designation.

## WORKSHOP FACILITATORS

**NANCY BUSETH**  
RN PT-BS COS-C

Nancy Busetth has 19 years of home care experience working as a staff therapist, assessment therapist, rehab director and director of referral management. She has extensive experience in medical record reviews to assess Medicare compliance, OASIS accuracy, and ongoing documentation that meets Medicare criteria for medical necessity to ensure that standards are met and to prevent loss of revenue. She has a unique insight into the practice patterns and characteristics of both nursing and therapy practitioners and leadership, given dual licensure as an RN and PT. She has experience in working with Quality Improvement interdisciplinary teams to develop action plans to improve OASIS accuracy, patient assessments and outcomes. Nancy has earned the Certificate for OASIS Specialist-Clinical (COS-C) designation and is a Clinical Consultant with OASIS Answers, Inc.

**KIM CORRAL**  
RN BSN MAED COS-C

Kim is a registered nurse, with a Master of Arts in Education, practicing in home health since 1984, with much of her career in home health. She has been a leader in both clinical and operational positions at the regional and national level with large corporate home health agencies, providing the clinical voice of quality, while increasing efficiencies. Kim has extensive experience speaking for national home care organizations on OASIS data collection and strategies, documentation standards, and operational processes to support OASIS and ICD-10-CM coding accuracy. She holds the Certificate for OASIS Specialist-Clinical (COS-C) and was an AHIMA Approved ICD-10-CM Trainer. Kim is a Senior Associate Consultant with OASIS Answers, Inc.
