

# OASIS C-2 Wound Assessment and Documentation

Wednesday, June 20, 2018, 2:00 pm – 3:00 pm  
Webinar Recording Available

Clinicians frequently identify the integumentary portion of the OASIS-C2 assessment to be the most challenging component. Join OASIS expert Anita Werner from Fazzi Associates, Inc. as she helps to simplify assessment of wounds and responding to these difficult M-Items. Learn key concepts including identification of wound etiology, staging of pressure ulcers, determining the healing status of wounds, and interpretation of OASIS -C2 Guidance Manual and Q&A instructions. Accurate integumentary responses on the OASIS-C2 lead to improved wound healing outcomes, accurate episodic reimbursement, and appropriate non-routine supply payments. Don't miss this opportunity to ensure your documentation supports the great care you provide!

## Program Objectives

- Categorize and capture wounds accurately on the OASIS-C2 assessment following CMS guidance.
- Evaluate healing status and/or staging of wounds accurately on the OASIS-C2 assessment.

## Continuing Education:

The presenters and program planners have no conflict of interest regarding this webinar. RNs and LPNs must participate in the entire presentation for contact hours to be awarded. To apply for nursing contact hours, please e-mail a typed list, and attach an evaluation form and a completed sign-in sheet, listing the individuals at your facility that participated and noting those requesting contact hours.

Individuals requesting contact hours will receive a certificate of contact hours earned. Please make sure that you enter the Contact Person's name in the Registration Form. All correspondence and site registration information will be sent to this person. No commercial support has been provided for this program.

## Presenters:

**Anita Werner, RN, BCHH-C, COS-C, Senior Compliance Consultant at Fazzi Associates**

As Senior Compliance Consultant, Anita Werner is widely known as an OASIS expert, instructor, enthusiast, devotee, coach and mentor. She has over 30 years of nursing experience and over 20 in home care. Prior to joining Fazzi, she ran a successful consulting practice providing agencies with advisory services, education, clinical direction, audits and reviews in several critical areas. In addition to OASIS, she is also a recognized expert in coding, quality and compliance. A frequent presenter at state and national conferences, she is appreciated far and wide for her ability to make complex concepts and regulations real and understandable.

# OASIS C-2: Wound Assessment and Documentation

Wednesday, June 20, 2018, 2:00 pm – 3:00 pm

**Convenience:** Enjoy the convenience and cost-efficiency of a webinar – watch the speaker’s slide presentation on the internet while listening by telephone or through your computer’s microphone and speakers (VoIP). There is no limit to the number of attendees from your agency who may participate at your site using one phone line and a computer with internet access.

**Confirmation:** Prior to the webinar, a link will be e-mailed to you. You will need to register through this link to attend the webinar. You will be sent a confirmation which will include a join link to access the webinar, a dial-in number and an access code to listen in via telephone. You will also be sent any pertinent handouts, if available, an evaluation and certificate. **The webinar will take place from 2:00 p.m. to 3:00 p.m. EST.**

**Registration:** The registration deadline is June 13, 2018. Registrations may not be shared between agencies – the agency’s registration covers the access of only one phone line/computer access to the webinar. Multiple site participation for your agency will require a separate registration fee for each connection. Please note: if your agency has sent in 1 registration but 3 people from your agency register through the link, your agency will be invoiced for the additional 2 registrations. The handouts will be emailed to you to the email address you provide. Please feel free to provide an additional email address as a backup.
