Working Together

for a Healthier New Hampshire

The New Hampshire Department of Health and Human Services (DHHS) is soliciting proposals to select qualified managed care organizations (MCOs) to provide health care services to Medicaid participants through New Hampshire’s Medicaid managed care program. DHHS expects to select three MCOs willing to work responsively with the State, providers, and Members to provide high quality, integrated health care on a statewide basis to a projected 180,000 Medicaid Care Management Members.

Join us at one of the several public forums in July 2018 to give your input on the draft Medicaid Care Management Request for Proposal to be released in July 2018.
