

SPARE SPIKE™

SPARE SPIKE™ ice cleat is a light weight and compact ice and snow walking device that fits easily and conveniently over all types of shoes and boots. It is extremely easy to use and can be put on or taken off in under 30 seconds. Weighing in at less than 4 ounces per foot, the **SPARE SPIKE™** is virtually inconspicuous on the user's foot or when carried in a pocket.

The traction on **SPARE SPIKE™** ice cleats comes from 16 tungsten carbide studs underfoot which enable employees to walk confidently in winter conditions. The spikes on the **SPARE SPIKE™** are replaceable and can be done so without any special tools. Each pair of **SPARE SPIKE™** features a patent pending "spare cleat" built in to the upper portion of the toe area, offering a quick replacement part for a suddenly missing cleat.

The **SPARE SPIKE™** features dual rear pull-tabs for easy on and off and an aggressively treaded sole that is designed to provide additional traction in thicker snow conditions. The **SPARE SPIKE™** is sized from an XS up to an XXL and is guaranteed to fit every one of your employees.

- Durable Tungsten Carbide Studs for Longer Wear
- Low Temp Elasticity for Guaranteed Stretch
- Lightweight and Compact
- Replaceable Studs
- Patent Pending "Spare Spike" on Toe
- Aggressive Tread for Deep Snow Traction
- Dual Rear Pull-Tab for Easy On/Off
- Patented Trim Line Feature to remove the heel traction
