

## *Ask the Presidential Candidates*

### **How will they protect access to health care at home?**

*Granite Staters have a unique opportunity to talk directly with presidential candidates. Here is a question important to providers and the patients we serve:*

“Older adults rely on home care and hospice agencies to help them stay out of the hospital, heal or spend their final days at home. But Medicare payment cuts, regulations and workforce challenges make it harder for home care and hospice staff to care for older adults. **What will you do as President to assure that older adults get the services they need at home?**”
