She will volunteer her experience in the manufacturing sector; particularly on the supply side. I did refer her to NHMEP.
Manchester	Revolution Furnishings	Rest beds and other furniture products	tbd	03/25/2020	Greg Bettencourt	(603) 669-9280	Email	<p>Chris Way contacted and sent email</p> <p>Thanks so much for the reply. It's empowering to know all the good folks working tirelessly right now to help solve this problem. I'll reiterate our desire to help where we can. We're an agile team with broad capabilities -- if there's anything specific that you have questions about don't hesitate to ask.</p> <p>We have researched our ability to create face shields, per the project that the University of Wisconsin put together. If New Hampshire has a need for those, we can respond.</p> <p>On the furniture front, last we pivoted to create a line of functional desks with the thought that students and professionals are trying to find productive spaces in their homes and may need access to desks. Attached is our progress on that front. We could deploy these very rapidly if the State had a need. We could also design a rest bed with similar aim if needed.</p> <p>Thanks again,</p> <p>Greg</p>
